EFT – Electronic File Transfer

Entitlement	The respective person is entitled to...
Info (only)	... to get or deliver information about the relationship, account messages and the daily operations for EFT.
Account setup	... to setup, amend or delete accounts for EFT.
Client setup	... to setup, amend or delete user or sub users or logins for all EFT products.
Release	... to release messages, which are blocked due to technical reasons.
Overlimit	... to release payments, which are blocked due to the defined maximum amount (limit).
Inquiries	... to get MT 199/999 (or similar) messages from the bank.
Technical Contact	... to answer and define technical questions, e.g. authentication mode, ftp accounts, encryptions, file names, and receive e-mails with general information.
Sanction	... to be informed and answer inquiries related to blocked messages due to a hit in the sanctions filter.

ARS – Account Reporting Systems

Entitlement	The respective person is entitled to...
Info (only)	... to get or deliver information about the relationship, account messages and the daily operations for ARS.
Account setup	... to setup, amend or delete accounts for ARS.
Client setup	... to setup, amend or delete user or sub users for all ARS products.
Manual Correction	... to request to cease temporarily the validation in order to load a statement with errors (and corrective transaction by Fides).
Technical Contact	... to answer and define technical questions, e.g. ftp accounts, encryptions, files names, and receive e-mails with general information.
